Kew Gardens Trip 07.03.18

On Wednesday 7th March 2018, Year 4 went to Kew Gardens as an additional trip for our current topic, Land, Sea and Sky. We were able to visit the Greenhouse and see numerous plants in there from the Americas, Australasia, Pacific and Africa. This helped us to learn about different habitat and the plants that inhabit them. We were also lucky enough to visit the Orchid house and see the aquatics display. The children were also able to explore and see Venus flytraps, Pitcher plants and Sundews up close.
