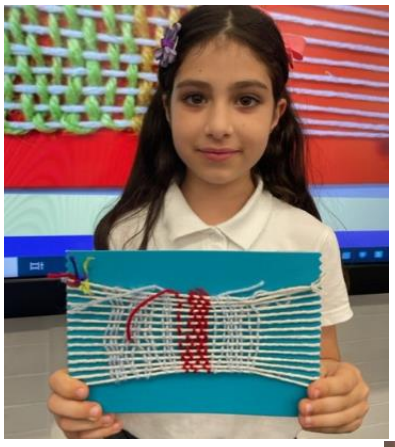
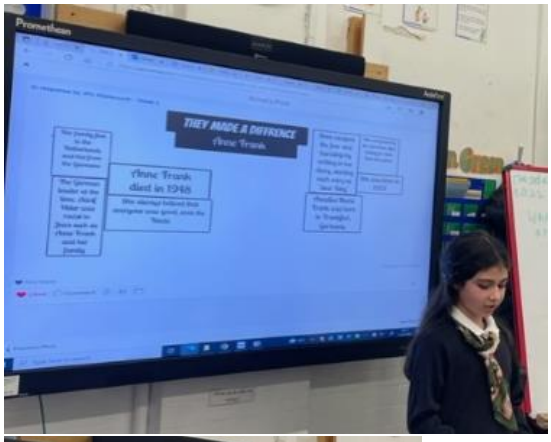
Review of 2022

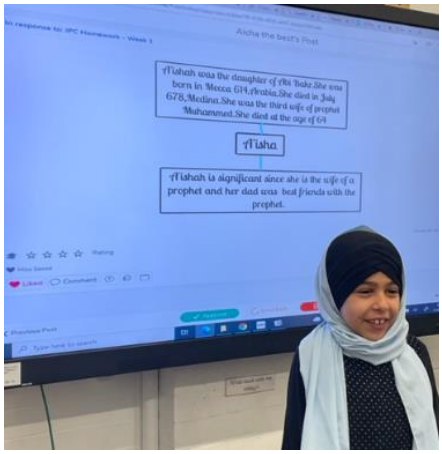
Dragon class

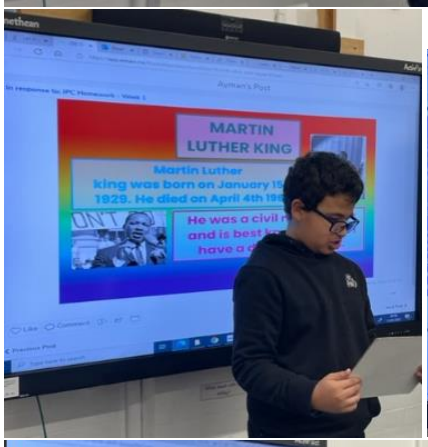
Dragon class have had such a wonderful year and we can't believe the summer holidays have arrived already! We had a fantastic time together full of activities, learning and fun. Below are some highlights from our magical year…

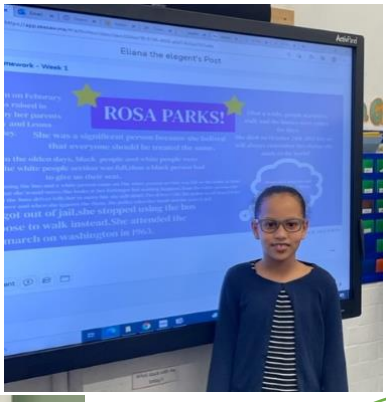


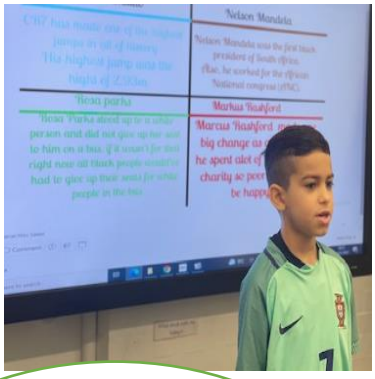
As part of our 'Building a Village' IPC topic, we had a go at weaving which is how the Anglo-Saxons made their clothes.

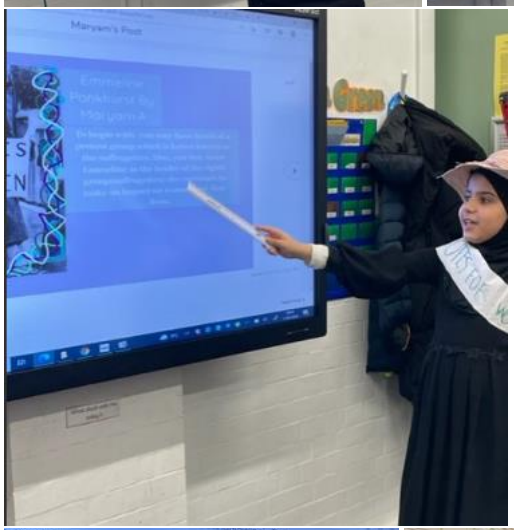




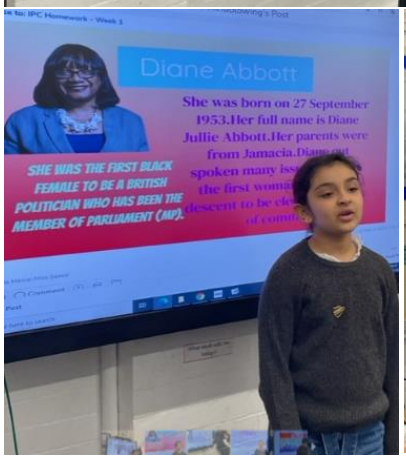


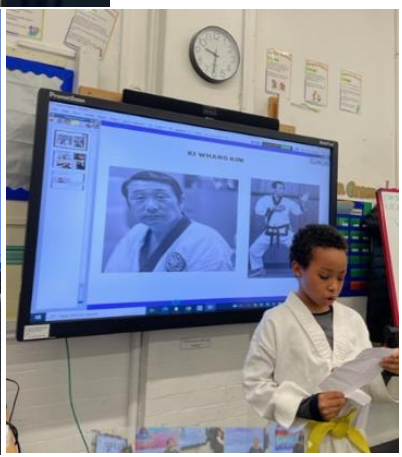




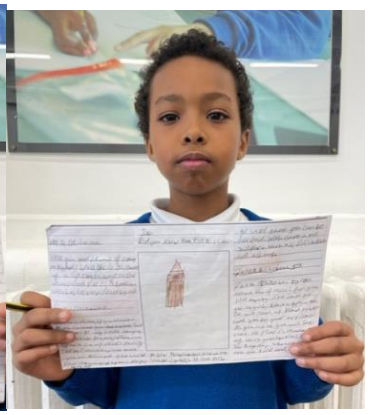


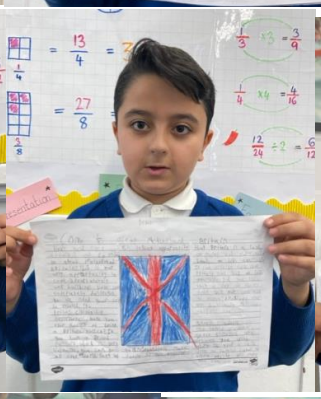
For our ‘They Made a Difference’ topic, we researched and dressed up as different significant people such as Emmeline Pankhurst, Diane Abbott, Albert Einstein, Rosa Parks, and Anne Frank.

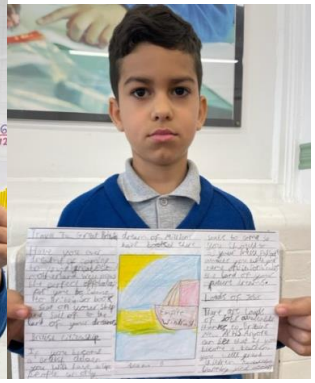


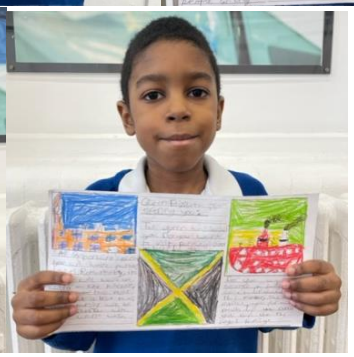


We read about the trials and tribulations of the Windrush Generation and the life of Floella Benjamin in ‘Coming to England’. This was a story that sparked passionate discussions on UN Children’s Rights.

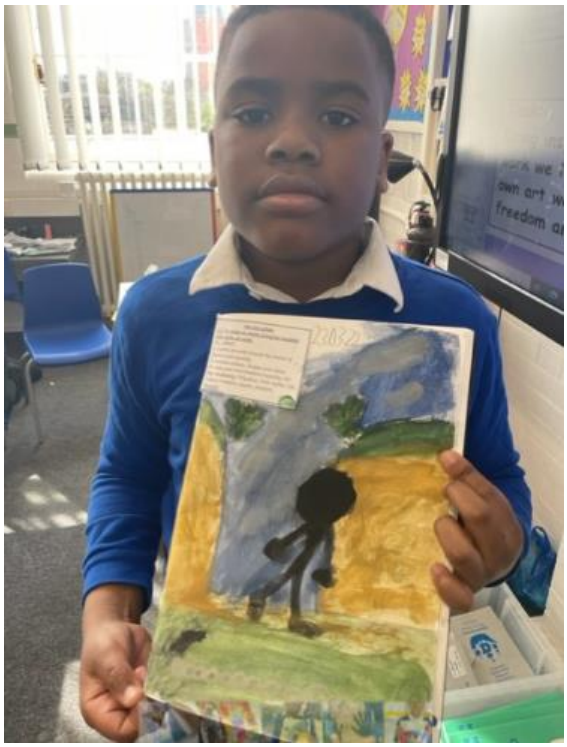


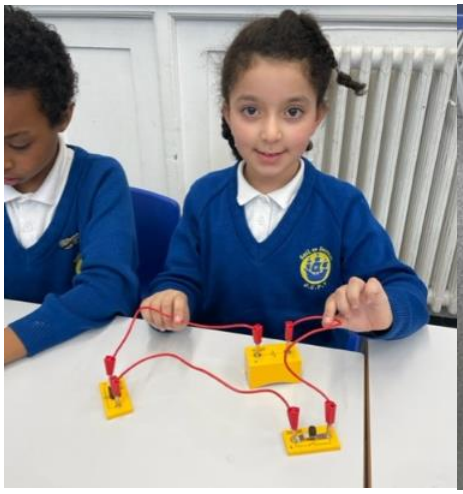


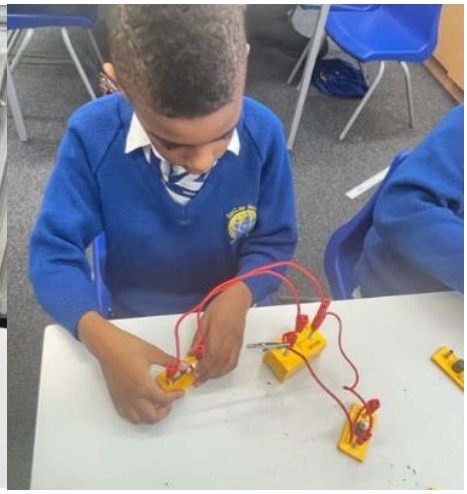




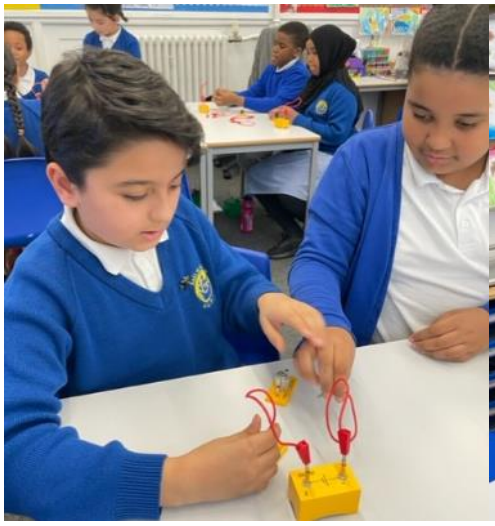
We created art inspired by civil rights era artists.

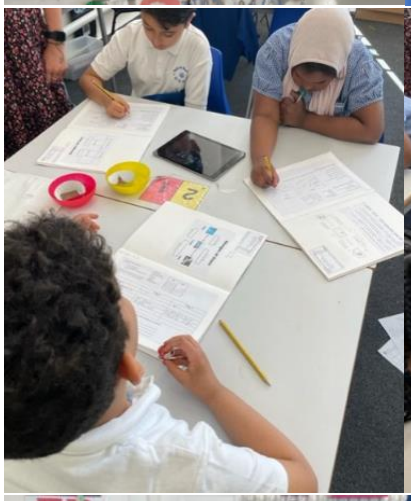


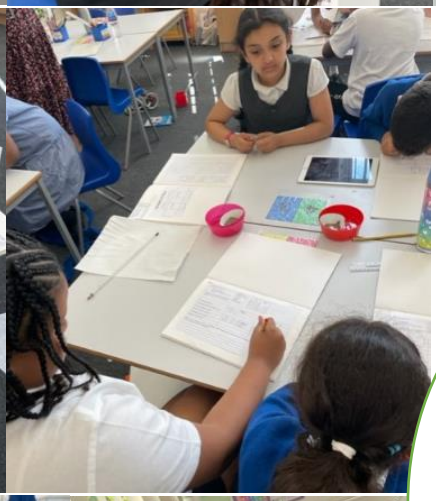




We learnt all about different electrical systems and scientists. Here we are connecting our own circuit.







Here we are investigating solids, liquids and gases….by melting chocolate!

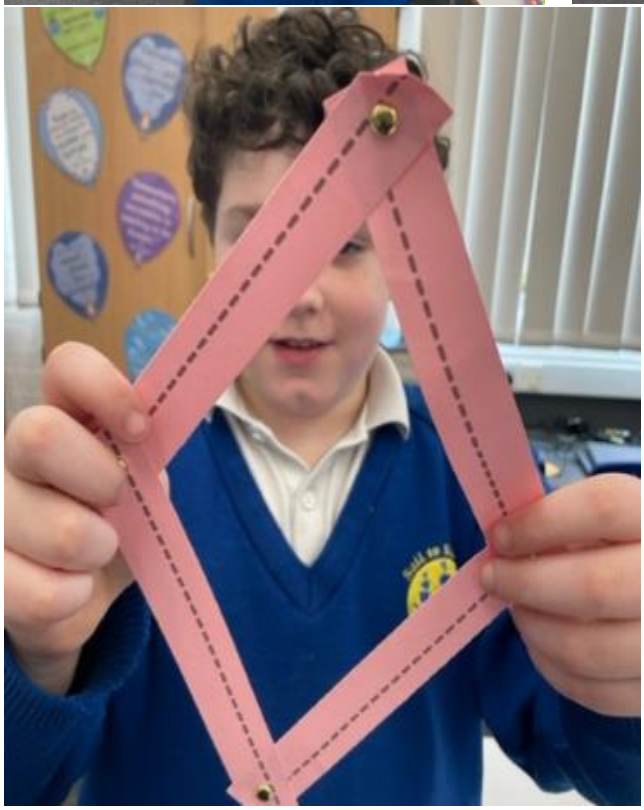
We timed how long it would take to melt when floating in cold and warm water.

Here we are at one of our Exit Points. But this one was particularly special as we launched a campaign to save endangered wildlife.

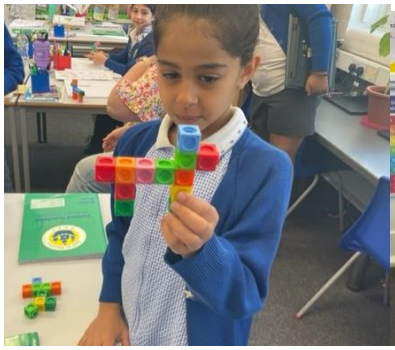
Well done Dragon for attempting to make a change in the world!

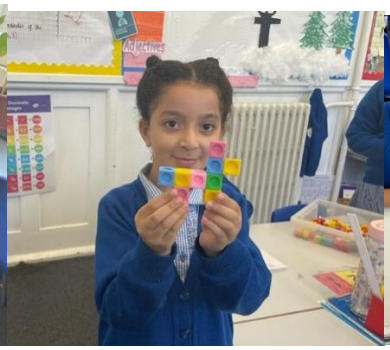
We have enjoyed cooking as part of our IPC

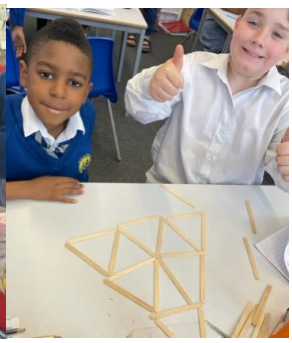
Summer unit!



We really enjoyed our Shape and Symmetry unit in Maths!

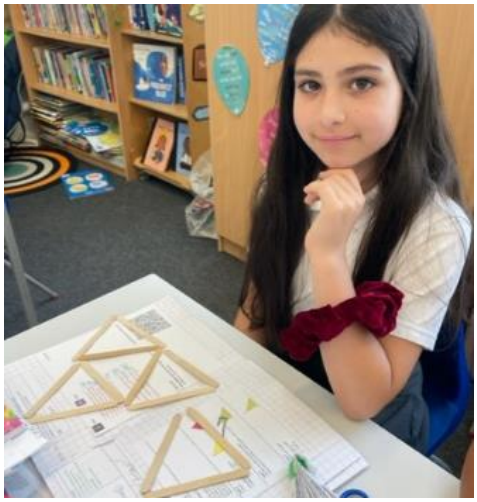






For a number of maths lessons, we worked systematically to find patterns in sequences.

One of the sequences involved dogs made out of cubes and in another we made a sequence of triangles out of lolly sticks.



Another World Book Day came around so we dressed up as some of our favourite book characters!

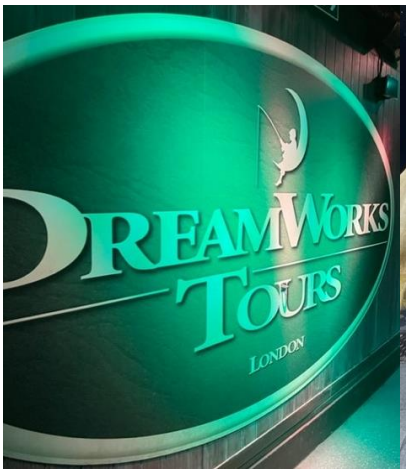
One of our favourite days

INTERNATIONAL DAY 2022

We loved celebrating all of the different cultures in Dragon class.

Recently we enjoyed a fantastic sports day with Years 5 and 6.

Finally, we ended the year with a class trip to Shrek's Adventure!



Every single member of Dragon has shown great resilience in order to achieve the most out of Year 4.

We have had so much fun together! I hope you have an amazing summer holiday. We will end with a poem by our very own Sofia which we loved so much.

MY OGPS POEM

OGPS is the best school,

To me it really rules.

The teachers here are the best,

They are better than all the rest.

I don't want to leave not even in Yr 6,

So lets hope 2 years don't come quick.

This place is great I can not lie,

I can't believe how quick time flies.

But I also can't wait for the summer holidays,

Going out , picnics and lots of time to play.

The school you and I love is the best,

It’s called OGPS!
