

Grenfell Tower Memorial Commission

Dear all

The Grenfell Tower Memorial Commission is made up of bereaved family members, survivors and Lancaster West residents. It will work with the community to decide on a future memorial, and on how the memorial site will be owned and sustainably managed in the future.

We know that not everyone was able to attend the Memorial Commission events earlier this month, so the community representatives have asked us to update you on recent developments. We would like to make you aware that two independent co-chairs have been selected by the Commission's community representatives to structure the plan for how we get to a memorial design.

The co-chairs are:

- **Thelma Stober:** Head of Legal at the Local Government Association and a member of the government's Victims' Panel. She is a survivor of the 7/7 London bombings and has worked on previous memorials.
- **Michael Lockwood:** Director General of the Independent Office of Police Complaints and formerly the chief executive of Harrow Council, Michael was brought in to manage the Grenfell site team and lead on recovery and engagement with the bereaved and survivors until January 2018.

The ten community representatives are:

- Adel Chaoui
- Hanan Wahabi
- Hassan Awadh Hassan
- Nazanin Aghlani
- Sandra Ruiz
- Mohammed Rasoul
- Abraham Abebe
- Hanan Cherbika
- Andrea Newton
- Susan Al-Safadi
