Trolls have settled really well into the summer term – we can't believe the year's almost over!

We have started to learn all about the different types of angles in Maths (acute, obtuse and right) and 'Living Things' such as plants, animals and humans for IPC. For our entry point, we came to school dressed as professionals that work with living things everyday such as gardeners, vets and doctors. We also got to draw an outline of our bodies and labelled the different body parts.

Can't wait to see what the rest of the summer has in store!
