Leprechaun Class End of Year Update

It has been a wonderful year in Leprechaun class despite more lockdowns and many restrictions!

The children have been amazing; so positive and enthusiastic throughout the whole year.

Leprechauns have been very resilient. They always enjoy learning new facts and new skills.

This year, we've had some wonderful IPC topics, which have allowed us to learn so much: from making Anglo-Saxon broaches, to creating our own robots with working electrical circuits and most recently cooking a variety of savoury dishes including stratas.

We've loved our class texts-particularly Coming to England, where we found out all about the life of Floella Benjamin.

As well as this, we have loved the daily challenge our maths lessons have brought us. We really enjoyed the recent investigations which we completed in class.

Recently, we really enjoyed meeting the author Paul Howard on Zoom. We loved his new release.

Thank you so much for all your support this year. Please be sure to check Seesaw for your child's learning celebration.

Have a wonderful summer,

The Year 4 Team

The Year 4 Team.
